+216 90 485 020
Ben Arous, Tunisia

Software Engineering student with hands-on full-stack experience across healthcare, education, and research-management platforms, and a growing focus on AI and cloud. Delivered production features in **Angular/Spring Boot** systems, real-time notifications, and CI/CD automation. **2nd at LunarHack 1.0**, top 10 in two further hackathons; **AWS Cloud** and **AI Practitioner** certified.

Professional Experience

Software Engineer Intern | *EspritTech* | **Tunis, Tunisia** June – August 2026

Intelligent Platform for the Management and Industrialization of Academic Projects

- Built a **real-time notification system** (WebSocket) across **Angular** and **Spring Boot**, with pagination, mark-as-read, and a notification bell, wired into affiliation, project, and evaluation workflows.
- Designed an **AOP-based audit-log module** across entity, repository, service, and controller layers, with a user guide and full unit tests for platform-wide change traceability.
- Delivered a **Team Management module** end to end (CRUD, role assignment, request approvals, advanced filtering) with **100% test coverage** on core services.
- Hardened **GitLab CI/CD** across 3 repositories (Angular, Spring Boot, ML microservice) with **Docker** image builds and **SonarQube** quality gates; fixed critical **XSRF**, **JWT/Swagger**, and **Hibernate** lazy-loading issues.
- Worked in a **Scrum/Agile** workflow, from requirements analysis to deployment (sprint planning, reviews, retrospectives).

Full-Stack Developer Intern | *TACHAFY* | **Tunis, Tunisia / Lyon, France** June – August 2025

AI-driven healthcare startup

- Built full-stack features for a global digital-health ecosystem (teleconsultation, diagnostics, medical marketplace) using **React.js (Material UI)**, **FastAPI**, **PostgreSQL**, and Postman.
- Engineered **chatbot** systems, **e-commerce** workflows, and **Stripe** payment, improving checkout reliability.
- Optimized application performance and **responsive UI/UX** in an Agile, cross-functional startup environment.

Projects

PFEX – Final-Year Project Management Platform Sept – May 2025

- Co-architected a full-stack platform managing the lifecycle of **360+** final-year (PFE) project subjects per year: submission, validation, supervision, and progress tracking.
- Built with **Next.js (Material UI)**, **Node.js**, and **PostgreSQL**.

SOFTECH – School Management Platform Oct – Jan 2024

- Built a school-management platform (students, teachers, courses, grades, timetables, payments) with **React.js (Tailwind CSS)**, **PHP**, and **MySQL**.

Hackathons

LunarHack 1.0 – 2nd Place 2025

- Built **Campus Compass**, an AI-assisted campus navigation and lost-and-found system. **Stack:** React (Vite), Flask, SQLAlchemy.

MenaCraft Hackathon – 5th Place 2026

- Developed **Detectify**, an AI system that detects manipulated or AI-generated content and checks context and source credibility, with a unified **trust score** and explainable risk indicators. **Stack:** FastAPI microservices, React (Vite), PyTorch, Transformers/CLIP, Gemini API, Chrome extension.

LunarHack 2.0 – Top 10 2026

- Designed an AI-driven platform helping traditional SMEs go smart through automation, data-driven insights, and decision support. **Stack:** FastAPI, React/TypeScript, multi-agent orchestration, RAG (RAGFlow), Ollama (local LLMs), Docker.

Education

- **Engineering Degree in Software Engineering (5-year program)** *Tunis, Tunisia*
  Faculty of Sciences of Tunis (FST), Tunis El Manar University *Expected Oct 2027*
  Coursework: Data Analysis, Software Engineering, Operating Systems, Algorithms, Artificial Intelligence
- **Baccalaureate Diploma, Mathematics – 16.25/20**
  Chadli Khaznadar High School *June 2022*

Skills

Programming Languages: JavaScript, TypeScript, Java, Python, SQL
Frontend: React.js, Next.js, Angular, Tailwind CSS
Backend: Spring Boot, Node.js, Express.js, Flask, FastAPI
Databases: MySQL, PostgreSQL, SQL Server, Supabase, MongoDB, Cassandra, Neo4j
Cloud & DevOps: AWS, Docker, GitHub Actions, GitLab CI/CD, SonarQube
AI/ML: HuggingFace, Ollama, Scikit-learn, TensorFlow, PyTorch, NLP, RAG Systems, Agent Orchestration
Certifications: AWS Cloud Practitioner (CLF-C02), AWS AI Practitioner (AIF-C01), Microsoft Office Specialist: Excel Associate (Office 2019)
Languages: English (C1), French (C2), Arabic (Native)
Interests: Taekwondo (1st Dan, Instructor), Basketball, E-sports (LoL – Diamond III, CS)
